

Small garden fountain with massive trough, base and pediment with molded cornice

This small-size garden fountain is a rustically charming wall fountain composed of a long and narrow antique massive trough as basin with two antique metal bucket rest bars resting on a thick stone base. Its pillar-shaped pediment is surmounted by a finely hand-molded cornice and is fitted with an antique wrought-iron water spout. One-of-the-kind fountain.

Height 132 cm

Width 70 cm

Depth 94 cm

- Basin's height : 45 cm (excluding base) - Base : L 94cm x D 110cm x H 7cm

Price

3210 €
