Round limestone fountain column with wrought-iron spouts

This large round column, designed as the central feature of a fountain or basin, is hand-crafted from frost-resistant limestone and aged and patinated using traditional methods. It is fitted with 4 large wrought-iron water spouts and crowned with an elegant capital topped by a ball finial. Ideal for enhancing a basin, it would transform it into a central fountain with the authentic charm of yesteryear's Provence.

Height 235 cm

- Base : Ø 60 cm x H 65 cm - Shaft : Ø 50 cm x H 110 cm - Capital : Ø 70 cm x H 20 cm - Ø 25cm ball on a 20 cm high base

Price

2900 €
