This central fountain in ancient stones is a crafted composition and a unique creation signed Bidal. This fountain presents a square basin made up of 4 large stones, thick copings, and a square central column decorated with four water outlets in metal and highlighted by a capital sculped in a diamond point. An ancient fountain with a rather sober design that will go perfectly with any type of environment.

Height 160 cm

Width 132 cm

Depth 132 cm

- Basin's height: 70 cm - Central column: 30cm² and capital of 45cm²
