This garden fountain in stone is a wall fountain crafted in Provence in the Avy Stone, a natural limestone that resists frost. This garden fountain has a basin with broad rounded edges. This basin rests on a thick base in stone. The pediment in dressed stones is topped by a finely molded cornice. A wrought iron water spout is highlighted by a nipple-shaped hand-sculpture.

Height 155 cm

Width 180 cm

Depth 130 cm

- Basin's height: 54 cm including 8 cm for the base -

Copings' width: about 27 cm
