

Large garden wall fountain in stone with 3 wrought iron water outlets

This large garden fountain is a wall fountain hand-crafted in Provence using genuine antique natural stones beautifully weathered by time. This fountain has a large and deep rectangular basin made of massive blocks that rest on a thick molded base. The copings are thin and molded. The pediment, which extends over the entire length of the basin, is adorned with a beautiful overhanging cornice, a pair of side corbels and of an opulent hand-sculpted mold that highlights the 3 antique wrought iron water spouts.

Height 186 cm
Width 404 cm
Depth 135 cm

- Basin's height : 86 cm

Price
11000 €
