Elegant antique wall fountain with superb hand-sculpted capital in stone

This beautiful wall fountain hand-crafted in old and patinated natural stones is unique and sold with its antique cast iron water outlet. The semi-octagonal basin is formed of massive basement stones topped by thick and wide molded copings. The semi-octagonal column at the back of the basin is exceptional ! This is due to all the magnificent hand-sculptures, and more especially those sculpted on the imposing and elegant capital.
