Basins \& Pools

## Square basin in old molded and patinated stones

This shallow and square-shaped basin is made of ancient stones (reclaimed stones that had been nicely molded by hand and patinated by time). It its center, a central piece composed of a massive molded cubic base on which rests a large stone ball from which sprang the water.

# Pierre - MatériauxAnciens <br> - Diameter of the ball : 55 cm 

| Height | 31 cm |
