

Large garden wall fountain in weathered stone with 3 water spouts

This large garden fountain is a wall fountain hand-crafted in Provence in beautifully weathered natural stones. This fountain has a large and deep rectangular basin made of massive basement blocks that rest on a thick chamfered base. The thick copings are nicely molded. The pediment, which extends over the entire length of the basin, is adorned with a beautiful overhanging cornice, a pair of side corbels and an opulent hand-sculpted mold that highlights the 3 antique wrought iron water spouts.

Height 177 cm
Width 405 cm
Depth 137 cm

- Basin's height : 82cm

Price
13800 €
