

## Wall fountain with a pedestal basin in weathered stone

This elegant wall fountain is a petite garden water feature crafted in Provence using aged and patinated natural limestone. This narrow and slender fountain features a straight pediment fitted with an antique wrought-iron water spout. It is topped by a beautiful cornice hand-sculpted with moldings. The small rounded basin rests on a fluted pedestal. It is fitted with a pair of metallic rest-bucket bars. A unique piece.

Height 136 cm  
Width 52 cm
