

## Wall fountain in weathered stone with antique cast-iron mascarón

This 2.4-meter-long wall fountain is a unique water feature, hand-crafted in Provence from frost-resistant limestone that has been aged and patinated by hand. It features a wide rectangular basin topped with thick molded coping stones. The stone pediment is enhanced by side corbels, a recessed plastron, and a molded overhanging cornice. This fountain is fitted with an antique cast-iron mascarón serving as the water outlet.

Height 150 cm

Width 242 cm

Depth 126 cm

- Basin's height : 50 cm
