Large wall fountains

Exceptional 4-meter stone garden wall fountain with 3 wrought iron water spouts

This imposing garden wall fountain is handcrafted in Provence from beautiful aged and weathered stone (frost-resistant limestone). It features a tall rectangular basin measuring 4 meters in length, formed of massive stone blocks resting on a thick molded base. Thick molded coping stones enhance the elegance of the overall design. The pediment, which extends across the full length of the basin, is adorned with a beautiful overhanging cornice, a pair of side corbels, as well as an opulent hand-sculpted mold that highlights the 3 antique wrought iron water spouts.

Height	185 cm
Width	400 cm
Depth	130 cm

- Basin's height : 85 cm

Price
13000 €
