

Large round trough in old stone for an eco-friendly garden decoration

This ancient circular stone trough in a nice ocher tone is a large monolithic basin that has been hand-carved by a stonemason in a noble, robust and ecological material that is natural stone. Rustic in appearance and with a nice natural patina of time, this shallow trough could now become an original and charming planter !

Height 40 cm
Diameter 83 cm

Price
1350 €
